## How to get a radio code for renault

**\*\*Customer Reviews\*\*** Read what others have said about their experience with this page. \* Peter (Apr 20, 2025): "Very good service" \* Bernard (Apr 19, 2025): "Thank you for the code!" \* STEFANO (Apr 15, 2025): "Hello! I paid but didn't receive the code. Help!" \* Amanda (Apr 12, 2025): "So easy! Thanks for the service" \* MR MARK (Apr 10, 2025): "Instant code brilliant!" And some not-so-positive reviews: \* Paul Ne (Apr 8, 2025): "Please refund my payment. I didn't receive the code." \* Johan (Apr 6, 2025): "My code was sent quickly. Great service!" \* Kamaran (Mar 18, 2025): "I appreciate your help in finding the code. Thanks!" **\*\*Unlocking a Locked Renault Traffic Car Radio\*\*** If you've lost your car radio code or it wasn't provided, don't worry! You can retrieve it using our generator. To unlock your Renault Traffic car radio, follow these steps: 1. Find your precode: \* Press the 1 and 5 or 1 and 6 buttons simultaneously to display the precode on the screen (if this doesn't work, you'll need to remove the car radio from the dashboard). \* The precode starts with a letter followed by 3 digits. 2. Generate your code using our tool. Note: If you're having trouble finding your code or using the generator, please contact us for assistance. To access your Renault Traffic car radio's code, locate the label at the back of the unit and remove it by taking out the radio from the dashboard. You may need disassembly tools like radio removal keys. The precode is usually found next to the "Security" option or at the end of a long number. Enter this precode into our generator to get your car radio code instantly, which will be emailed to you. If the code doesn't work, ensure the precode was read correctly and there are no typing errors when entering the code. Pressing 5 or 6 validates the entry. Most codes are free; enter your serial number or vehicle registration number (VIN) to get started. A list of available Renault Traffic car radio codes can be found here. To unlock your Renault Traffic car radio, use the generator above and provide your serial number or VIN. If you're unsure about locating these numbers, follow the instructions below. The VIN can be found on the base of the windscreen (17 digits long, starts with VF) or inside the door (same characteristics). The sat nav serial code is located on a printed label attached to the radio's back; remove the unit from the dashboard to access it. To unlock your Renault radio, locate the serial code on the printed label attached to the radio unit. You only need the last 4 digits of this 15-digit code. Watch a removal video if needed. Once the label is removed, enter the required part of the serial code into the box at the top of the page, which consists of a letter followed by three numbers. For all Renault radios (except sat nav), simply follow these steps: turn on your radio and wait for "0000" to appear on the screen. Press buttons 1-4 repeatedly in sequence until the correct code is displayed.
